TUBING SETS

LAMIS Infiltration Tubing

LAMIS Infiltration Tubing features a large internal diameter to maximize flow. It is available in single and dual spike configurations.

LYSONIX® Infiltration Tubing Set

LYSONIX® Tubing provides high flow rates and convenient dual bag spikes.

Autofuse Infiltration Tubing

This soft formulated tubing will work in most infiltration pumps. A silicone tubing insert is designed to increase flow, eliminate tubing creep and make changing tubing more convenient.

PSI-TEC™ Aspiration Tubing

PSI-TEC™ tubing is resistant to kinking or collapsing.

Available in 8' lengths for standard aspirators, or 12' lengths for PSI-TEC™ systems.

MISCELLANEOUS DISPOSABLES

Undies

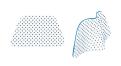

Undies are made from lingerie cloth tailored for comfort and modesty, but are priced for disposability. They are available in three styles and three sizes—our traditional style, a style made especially for men (in two sizes) and an abbreviated thong style.

Wrap-It

distortions. Unique wrap around design maximizes protection while delivering a full field of vision. Wrap-It Eye Shields can be worn over glasses and are light weight and comfortable.

Thermoplas Nasal Splint

Thermoplas offers a nasal splinting material with 100% memory for easy remolding. Thermoplas is highly stretchable, and features two degrees of elasticity to accommodate all types of noses.

Medi-Cubes

Medi-Cubes are a simplified approach to cold therapy for the safe and convenient relief of pain, edema and bruising following office procedures. Apply Medi-Cubes for effective cryotherapy before or after small procedures.

CANISTERS AND FILTERS

Contour Genesis Infiltration Tubing

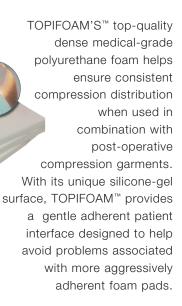

Used with the PSI-TEC™
Infiltrator and EZ-PUMP™
Infiltrator, ultra flexible Contour
Genesis Infiltration Tubing
provides high-flow rates with a
single spike system.

Contour Genesis Infiltration/Irrigation Tubing Set

The Contour Genesis
Universal Infiltration/Irrigation
"Y" Tubing Set provides highflow rates and a convenient
dual spike system.

TOPIFOAM™ Silicone Backed Foam Pad

Canisters

The Flex-T Canister System consists of a reusable rigid canister and a soft disposable liner with attached lid and ports.

PSI-TEC™ Absolute Filter

A single barb system for use on all PSI-TEC[™] Aspiration Systems.

Accelerator Absolute Filter

The Accelerator Absolute
Filter with dual barbs for
inline installation on any high
powered aspiration system.
The Accelerator Filter can
be used wherever effective
filtration of particulates or viable
airborne organisms is required.

Cannula Brushes

Tough bristles allow entry into small cannulae, yet are strong enough to penetrate plugged instruments. Tips are blunted to prevent scratching and extra long handles allow cleaning of even your longest cannulae. Priced for disposability.
