eTwo™
Complete
Facial
Rejuvenation

Science. Results. Trust.

Syneron®
Candela®
"In my experience, when treating patients with eTwo the results I see in skin texture and luminosity are consistently impressive."

Brian Biesman, M.D.
F.A.C.S., Tennessee

"In my trials, I have found that the Sublative treatment from Syneron offers a unique combination of ablation and skin resurfacing leading to wrinkle reduction, skin tightening and even lifting with less downtime than traditional skin rejuvenating treatments.

My patients are pleased with the fast, visible results of smoother, brighter and tighter skin, without having to sacrifice time from their busy schedules."

Amy Taub, M.D.
Dermatologist, Illinois

Complete Facial Rejuvenation Using eTwo™

eTwo combines the unique Sublame and Sublative applications for comprehensive facial rejuvenation:

- Sublame™ uses the elōs combination of safe and effective levels of infrared light and bi-polar radio frequency energies to remodel the deep dermal layer of the skin by stimulating new collagen growth.
- Sublative™ fractionated bi-polar radio frequency technology places the heat energy effectively into the upper dermis where it can produce a significant increase in both collagen and elastin with minimal epidermal disruption.
The promise of noticeable results with minimal downtime and lower procedure cost is spurring interest in fractional methods of skin rejuvenation. Patients are increasingly requesting these treatments to improve their appearance.

The eTwo system not only enables your practice to address this growing demand, but also adds non-invasive wrinkle treatment to your revenue stream.

Rejuvenate Your Practice and Meet the Growing Demand

The eTwo system was designed with your practice in mind. Excellent ROI potential - lower acquisition and disposable costs, plus lowest overall cost of ownership compared to competitive products.

Visible Results, Low Downtime

The Technology

Su-blime
[suh-blahym], noun.
1. Non-invasive wrinkle treatment
2. ëlos technology for safe and effective treatments
3. Fast treatment, immediate visible results

Sub-la-tive
[sah-bla-tiv], noun.
1. A new category of fractional skin treatments
2. High dermal impact, low epidermal disruption for all skin types
3. Minimal downtime, proven efficacy, satisfied patients

eTwo System – A Smart Choice

- Intelligent Feedback System provides real time information on skin condition, impedance and the energy delivery of each pulse for consistency and reproducibility
- Minimal downtime so patients can quickly resume their normal activities
- Safe and effective for all skin types
- Quick treatments: typically 20 to 40 minutes depending on area treated
- Short treatment protocol: 3 treatments spaced a month apart
- Lightweight, compact, multi-applicator platform that easily transports between practice locations
Sublime & Sublative: The Versatile Advantage

Sublative

Sublative uses the elōs combination of IR and Bi-Polar RF to provide controlled deep dermal heating. This predictable heating of the deep dermis both stimulates and shortens aged collagen fibers, resulting in the immediate and long term improvement of wrinkles and facial contour.

The unique Sublative ergonomic applicator delivers bi-polar radio frequency energy via the matrix of electrodes of the disposable Sublative iD. This fractional delivery of RF energy causes micro-epidermal ablative injuries with wider spread dermal coagulation. This initiates a strong wound healing response in the dermal matrix while also minimizing the damage to the epidermis. Less affected tissue surrounding the matrix points may be stimulated by heat which helps accelerate the healing process, leading to a smoother, rejuvenated appearance of the skin.

Sublative

Sublative and Sublative

The Science of Sublative

The Science of Sublime
Introducing: Sublative iD™

Multiple Treatment Options, Exceptional Results

Dramatically improve texture, tone, laxity, wrinkles and scars with new Sublative ID tips

Sub-la-tive iD
[suh-bley-tiv I-D], noun.
1. Intelligently Designed tips to maximize treatment options and results
2. Re-connectable per treatment
3. Multiple tip configurations

64 pin
1. Fast full face Sublative Rejuvenation for improved skin tone and texture
2. Multiple tip configurations for various treatment protocols

44 pin
1. Optimized electrode geometry for smaller areas and focused treatment on peri-orbital and peri-oral wrinkles
2. Focused treatment of acne scars, under-eye laxity and forehead wrinkles

New Sublative iD Treatment Screen

Intelligent Feedback Graph (IFG) - Shows a moving average of pulse to pulse impedance
Skin Feedback Meter (SFM) - Shows skin condition and energy delivered
Full Energy selection bar with highlighted program range
Scaled injury pattern shows depth and width of sublative thermal damage

Sublative iD Standard 64 pins
100 and 400 pulses per tip

Sublative iD Focal 44 pins
200 pulses per tip

Syneron and Candela are the global leaders in the aesthetic medical device marketplace.

We are one company with two distinctive brands. We combine a level of innovation, expertise and customer understanding superior to that of any company in our industry.

Financial stability, through our aligned resources, allows our new company to offer customers the broadest available product portfolio, the best global service organization and an expansive worldwide distribution network.

Together, we are more market responsive than ever before. We know how to quickly innovate safe and effective products to meet a variety of needs and price points. We are even stronger at anticipating future market trends to help support our customers and their patients. With new breakthrough technologies currently in the pipeline, we are ideally positioned to maintain our global leadership and continue to help you grow your practice.

Syneron and Candela have offices and distributors around the world.
